

Multiple categories in DOCMan Lister and Tabular

Posted by khawaib - 2008/08/19 16:18

Find the file: /administrator/components/com_docman/classes/DOCMAN_utils.class.php
and goto line number 894.

Change following code:

```
$query .= $catid ? "\n AND d.catid IN ($catid) " : "";
}
else
{
    if ($user->isSpecial) {
        $query .= $catid ? "\n WHERE d.catid=$catid " : "";
    } elseif ($user->canApprove()) {
        $query .= $catid ? "\n WHERE d.catid=$catid " : "";
    } elseif ($user->canPublish()) {
        $query .= "WHERE d.approved=1";
        $query .= $catid ? "\n AND d.catid=$catid " : "";
    } elseif ($user->userid) {
        $query .= "WHERE d.published=1 AND d.approved=1"
            . "\n AND (d.downer=" . $user->userid
            . "\n OR d.dmmaintainedby=" . $user->userid
            . "\n OR d.downer=" . _DM_PERMIT_EVERYONE
            . "\n OR d.downer=" . _DM_PERMIT_REGISTERED;
        if ($user->groupsIn != '0,0') {
            $query .= "\n OR d.downer IN (" . $user->groupsIn . ")";
            $query .= "\n OR d.dmmaintainedby IN (" . $user->groupsIn . ")";
        }
        if ($_DOCMAN->getConfig('author_can') != _DM_AUTHOR_NONE) {
            $query .= "\n OR d.dsubmittedby = " . $user->userid;
        }
        $query .= ")";
    }

    $query .= $catid ? "\n AND d.catid=$catid " : "";
}
}
```

with this code

```
$query .= $catid ? "\n AND d.catid IN ($catid) " : "";
}
else
{
    if ($user->isSpecial) {
        $query .= $catid ? "\n WHERE d.catid IN ($catid) " : "";
    } elseif ($user->canApprove()) {
        $query .= $catid ? "\n WHERE d.catid IN ($catid) " : "";
    } elseif ($user->canPublish()) {
        $query .= "WHERE d.approved=1";
        $query .= $catid ? "\n AND d.catid IN ($catid) " : "";
    } elseif ($user->userid) {
        $query .= "WHERE d.published=1 AND d.approved=1"
            . "\n AND (d.downer=" . $user->userid
            . "\n OR d.dmmaintainedby=" . $user->userid
            . "\n OR d.downer=" . _DM_PERMIT_EVERYONE
            . "\n OR d.downer=" . _DM_PERMIT_REGISTERED;
        if ($user->groupsIn != '0,0') {
            $query .= "\n OR d.downer IN (" . $user->groupsIn . ")";
            $query .= "\n OR d.dmmaintainedby IN (" . $user->groupsIn . ")";
        }
        if ($_DOCMAN->getConfig('author_can') != _DM_AUTHOR_NONE) {
            $query .= "\n OR d.dsubmittedby = " . $user->userid;
        }
        $query .= ")";
    }
}
```

```
$query .= $catid ? "\n AND d.catid IN ($catid) " : "";  
}  
}
```
